

VITALGREEN

8-2-2

Fertiliser with amino acids

Liquid fertiliser suitable for organic farming, complete and versatile, obtained through an exclusive natural process of bacterial fermentation, which enhances crops from root to fruit.

DECLARED CONTENT (w/w)

Total Nitrogen (N)	8,2 %
Ammoniacal nitrogen (N)	4,0 %
Organic nitrogen (N)	4,2 %
Water-soluble phosphorus pentoxide (P2O5)	20 %
Water-soluble potassium oxide (K2O)	2,0 %

POOR IN CHLORIDES

AMINO ACIDS

✓ 15% Free amino acids*

✓ 100% Plant-based

*It contains free amino acids obtained by enzymatic hydrolysis of plant-based proteins.

OTHER INFORMATION

Polysaccharides	6,80 %
Total organic matter	52 %
Total humic extract	19,7 %
Organic Carbon	32%
pH	6,5 (20°C)
Density	1,25 kg/L (20°C)

Fertilizer usable in organic plant production according to R(EU) 2018/848 in accordance with the UNE 142500 Standard.

PRODUCT BENEFITS

- Increase in production and quality of the harvest.
- Reduction of the cost of fertilization.
- Improves the physical, chemical and biological properties of the soil.
- It helps to prevent and overcome moments of crop stress.

DOSAGE** AND METHOD OF APPLICATION

- ✓ Fertigation application:
 - ✓ Vegetables and berries: 10-20 L/ha per month.
 - ✓ Fruit trees and woody plants: 20-40 L/ha per month.
- ✓ Foliar application: 2 cc/L
- ✓ It is recommended for use on all crops during periods of peak nutritional demand.
- ✓ It is also recommended when the crop is under stress and as a complement to any foliar treatment.

****Note:** Doses can be adjusted according to the nutritional status of the crop, soil type, irrigation system and local climatic conditions. It is recommended to perform foliar and soil analysis before establishing the final program.

PACKAGING

- ✓20 L
- ✓1000 L

Compatibility:

Do not mix with copper products or mineral oils; Compatible with most fertilisers and phytosanitary products. It is recommended to test the mixture before combining it with other products in large quantities.

Handling and storage:

Store in a cool, dry place protected from sunlight and heat, with the container tightly closed. Wear personal protective equipment (PPE), including gloves, a mask, and goggles, to avoid direct contact during application.
